BRULE, WISCONSIN 54820

COMPREHENSIVE PLANNING COMMITTEE MEETING Wednesday, July 23, 2008

Chairman Tom Champaigne opened the meeting at 4:05 p.m. Present were Gerald Anderson, Dennis Smet and Marcia Caven. Absent were: Tim Follis, Mark LeSage, Joe Swenson, Myron Olson, Dean Baillie and Don Korhonen. The policy document was looked over again for needed changes and additions to the actions.

Dennis noted that the Utilities & Community Facilities section should change the word from size to capacity on the second action. Wording for the Natural Resources action section was added as follows: 2) Support efforts to protect threatened and endangered species in the town, and work to educate the public about the spread of invasive species. 3) Work with the WI DNR in providing information to the public on management plans for local resources before approving construction or other activities affecting those resources. Responsible entities for this section should also include WI DNR.

Gerald said he had gone over the policy document after the last meeting and noticed that some of the action items were missing on transportation, cultural resources, and intergovernmental cooperation. The Clerk will send a copy of the list with the information highlighted to Michael Kinnick of the NW Regional Planning Commission for an update.

The larger map of Brule proper was colored to identify individual items such as industrial, commercial, parks & recreation and government & institutional. This map along with the maps colored at the previous meeting will be sent to Mike. Copies will be kept at the town level.

The meeting was adjourned at 5:10 p.m.

Respectfully submitted,

Marcia Caven, Clerk
